

Wookie Au-Ag-Zn-Pb-Bi Project

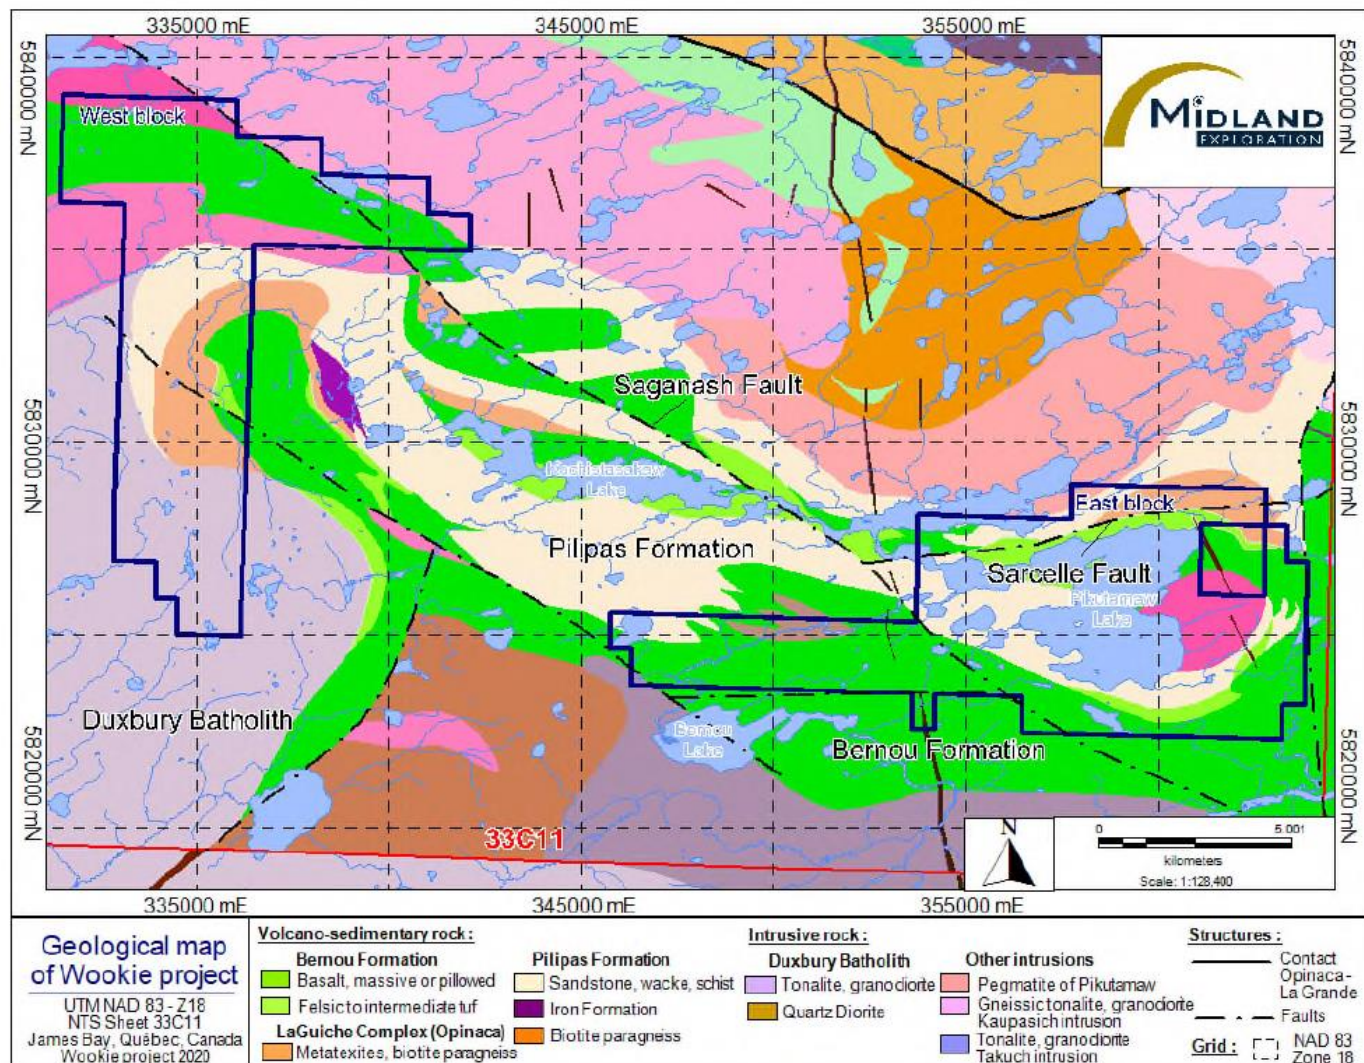

June 2021

Midland Wookie Project Location

Midland Wookie Geology

Wookie Mineralization Au-Ag

Figure 13. Quartz vein with trace pyrite, B569695, which returned 1.47g/t Au and 391g/t Ag.

Wookie Mineralization Zn-Pb

Figure 14. Sample B569581 returned 1.63%Zn and 0.12% Pb in quartz vein with galena, sphalerite and pyrite, located 26m of rusty quartz vein B569695.

Wookie Mineralization Zn-Ag

Figure 15. Quartz vein with hosted by sericite schist (B569584) which returned 0.5%Zn and 2.5g/t Ag.
