

# Midland-SOQUEM Alliance in the Labrador Trough

# New Copper Discovery in Nachicapau Area

**Legend**

- 2022 New Copper discovery
- Cu showing
- Cu-Au showing
- Midland-SOQUEM claims

**Field work**

- 2022 Rock samples
- Historical rock samples
- Virginia 2012 drillholes

**Geology**

**Montagnais Group**

- Aphyric gabbro, olivine gabbro, quartz gabbro, locally pegmatic

**Murdoch Formation**

- Mafic pyroclastic rock (Tuf, lapillis Tuf) Magnetic Basalt, Chlontic Schist
- Basalt, massive and pillowed
- Grey mudstone and siltite
- Magnetite bearing Dolomite interbedded with chert

**Baccus Formation**

- Greywacke interbedded with Conglomerate, turbidite

**Denault Formation**

- Grey stromatolitic, laminated Dolomite interbedded with grey and black Chert

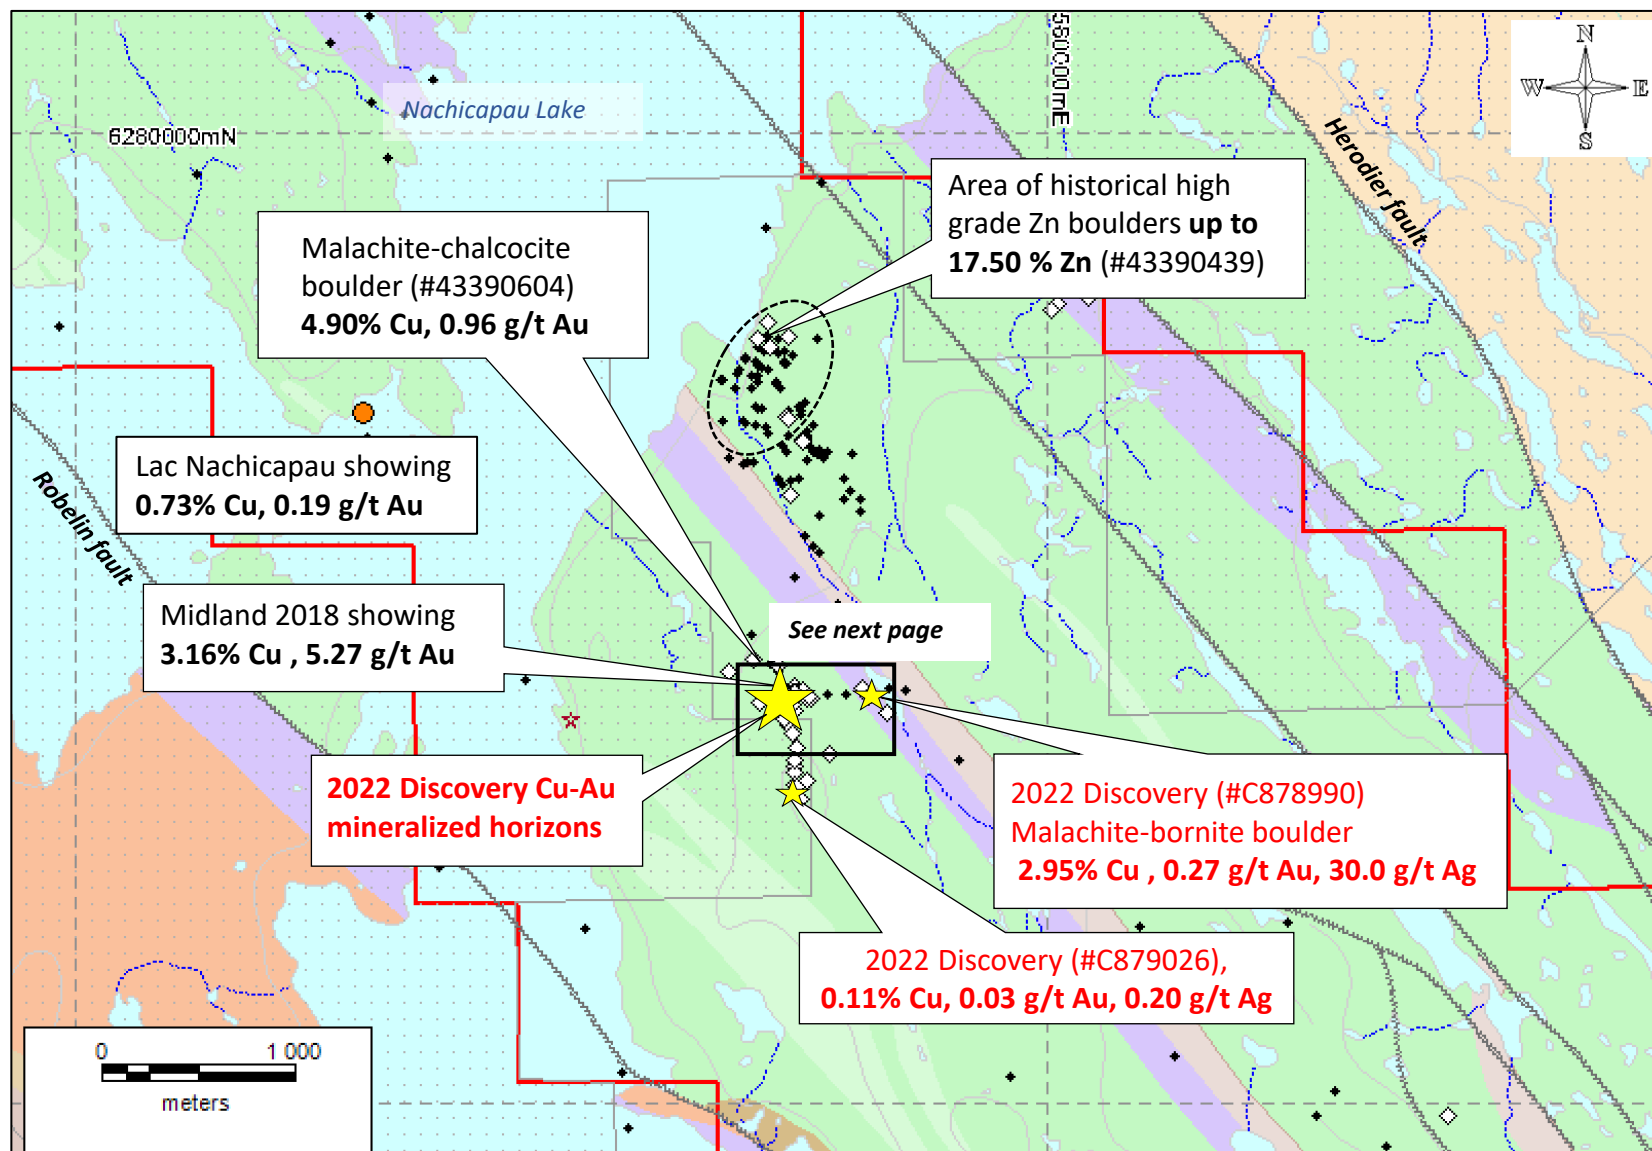

**Freuse Suite**

- Paragneiss and Amphibolite

**Exploration restrictions**

- Specific Agreement for Conservation around Nachicapau Lake (exploration allowed)

**Projection System:**  
Universal Transverse Mercator NAD83  
Zone 19
